Didn't like it.. I will give this game a positive review... the game is not horrible, but it has all been done before, and better, by other developers.

Too much like Geometry Wars: Retro Evolved, but without all of the flashy graphics.

In fact, I'd say buy Geometry Wars: Retro Evolved first, and if you can't have enough twin-stick arena shooters, please, buy this one, too.. Your character gets tired after throwing a combo. Not you, you can be perfectly fit, that's fine. Your character, in the game, the game you bought to punch virtual people, gets tired on his own, independently from whether you're on the brink of fainting or still fresh and wanting for more. You then have to wait several second and try blocking before your punches have any effect. This, is a boxing game, where throwing punches is kinda sorta maybe the priority.

I'll bother writing a complete review when this frustrating feature is gone.

Meanwhile, I'm going back to The Thrill of The Fight.. Got this game on sale for \$0.49 and beat it in 38 minutes. It's good, simple fun, but definitely on the short side. There are some weird fluctuations in level difficulty, but it was almost refreshing in an age of games with painstakingly balanced difficulty curves. Kind of got the feeling the dev just made a new level whenever inspiration struck, whether it was an interesting challenge or just a unique shape, and I don't see that as a bad thing. I find it charming.

Easy achievements may be a plus; simply completing the game netted me 100% completion.

Would recommend, but if \$2 for potentially under an hour of gameplay seems steep to you, maybe wait for a sale.. Bad netplay.

-Feels horribly unfinished

-Buggy

-MUCH better boxing out there

-Blocking seems like it's based on luck, not position of hands

1V5

This game feels like an EA game the dev released far before ready. The boxing is sub-par, the opponents are bland and boring, hitboxes are terrible, which in a boxing game you need to have a good hitbox. Really everything in this game that you need to have good in order to be a playable boxing game, is not good.

[For real though, this game is pretty damn fun even with just bots. And just \\$10? Yeah, I'd say worth it.. TLDR only buy if you're a fan, not a good introduction to the series because you wont get what's happening.](#)

[Keep in mind before buying that this is indeed a visual novel with some very minor game play elements. It's also a rehash of the original story except this takes place after one of the endings that results in the story being restarted with some people remembering and some not or at least that's how it is to my understanding.](#)

[I'd personally only buy this game if you're a fan of Corpse Party like myself and if the game is under \\$10AUD. I don't have much time played cause I watched the game through on youtube like a year before this game was available on Steam. A huge plus for me with this game is that it uses the original artwork and not the \u2665\u2665\u2665\u2665\u2665\u2665 artwork the remake uses in the first game that's on Steam.](#)

This game is actually pretty cool. Definitely a Portal-esque kind of game. Definitely worth the money. The timer is actually a really interesting and challenging aspect to this game. Very well done.. Just what I need to unwind after massacring zombies..... Beautiful, Catchy/Dynamic Music, Paced Gameplay (Easy to Challenging), Story Mode ... I'm not a huge puzzler, but I was a gamer when Tetris was huge, and this feels like a complex, evolved, yet still-casual take on the action-puzzle genre :). This player cannot play legally-owned store-bought blu-ray discs.. Compleat\u2665\u2665\u2665\u2665\u2665\u2665 Do not get.. Not worth it... far too basic and runs poorly.. Upon completion of Nethergate (8/31/14, 5:54am), I've now finished every single Spiderweb game on steam on torment difficulty.

In celebration I am considering setting up a shrine on the street and charging people 5 dollars to come and soak in my magnificent countenance.

"Come! See the man with no life!" the brochures will say, "So little life, that he spent over 900 hours playing through the Geneforge saga, Nethergate, Avadon 1 and 2, Escape from the Pit, and the second Avernum trilogy on the hardest difficulties!"

Mothers will shush their children and tell them not to look as they pass by, the occasional kindly priest or do gooder will sometimes throw a few coins my way and mutter prayers to themselves wondering how one could have fallen so far, while groups of teenagers and young men will jeer and mock, throwing old tin cans and bits of rock at my head.

But I shall sit serenely in my state of old school isometric RPG nirvana, my body covered in muck and spit, but my mind drifting outside of the cares of this world, pondering the time that my party was nearly wiped and I fought off a group of chitrachs with just my priest, or the time in Avernum 5 when I spent 20 minutes killing a wolf with 4,000 hp, or the time in Geneforge 4 when I repeatedly reloaded a giant battle to save all the Serviles because I couldn't bear to see a single of the cute little buggers get caught in the crossfire, or that bloody, \u2665\u2665\u2665\u2665ing, redbear boss fight (which, truth be told, I never did bother completing). In short, while physically present, I shall have passed on from this world, lost in a realm a bit higher than the real, forever and wholly beyond the fray.....or at least until Spiderweb releases another game, anyway.

. At this early stage I have installed it, but I am not seeing the controls. Have tried to reinstall and reboot, so not sure what the problem is. I wouldn't recommend it at this stage, but may update this once I reach out to support.. Good game for a good price. Mash buttons, hope you land on a block, retry a billion times. Pleasantly surprised by how inventive the levels get.. Spent \$10 for this game and it crashes right when i click to play the game. Screen goes black then says it crashed and to send the report to the developers. This is stupid. Really doubt i will get my money back or an update since the last update seems to be from 2016.. Whatever. I like this one a lot. It reminds me of Star Wars Pod Racer, my favorite racing game. Play through the campaign to get all of your abilities unlocked.
