Gerechtigkeit ist ein sehr kostspieliges Gut, weshalb sie in die Hände derjenigen gehört, die am meisten dafür bezahlen können. Vielleicht ist das ja der Grund, warum der Hammer eines Richters dem eines Auktionators gleicht ...

I collect paint programmes as a hobby just as much as I love drawing. I have been collecting them for many many years. Black Ink may not seem too new to me because of that, but it is a beautiful programme to have in my collection. It has a fantastic streamline UI and everything runs very smoothly. Works perfect with my pen pressure of my CTH-470 and supports the eraser function on the pen too.

The only downside is, from first opening, the brushes seem quite limited. However, you can play with the settings and change that on your own. Many paint programmes also come with communities who create their own brush packs, so keep an eye out for any generous, creative folks...

EDIT: A while ago, I went snooping the forums for Black Ink and discovered a wide range of fan made brushes for importing into the program, much like how most paint programmes do this now. You can still make things on your own in programme, but the community is bursting with fantastic creativity and it's very generous for sharing it. I am very happy to find this, and it opens so many new options!. Terrible. The controls are so convoluted & there is not even a hint of a tutorial within the game. I had to check the "About This Game" section of this page & after that I was able to find out that the only button worth a damn were the R&L bumbers. I successfully jumped from a whopping 2 point high score to an 18 with this new found knowledge. I was then congratulated for my\u2665\u2665\u2665\u2665\u2665poor score. This leads me to believe the devs didn't think anyone was going to make it much further than my piddly effort.

Considering a refund.. Simply a lot of fun! Similar to PS MotorStorm but IMHO more fun since you have more free roaming and game types than in MotorStorm. Also I am using XBoxOne controller which works like a charm and it is highly recommended.

10/10

Have fun!. A slightly awkward positioning of hands for Oculus Touch, but completely playable. Sickness-wise it's surprisingly comfortable. The bit with the knight got me good and was my favourite.. 10/10
always fun to beat my meat when i pop balls

the ♥♥♥♥ did i just buy.... The first YS series series i play back in 2009 and one of the most memorable series I have been played! Awesome gameplay and music (Thanks JdkBand) , challenging bosses (ESPECIALLY NIGHTMARE MODE), you wont regret buying this. How to finish the level 16 Atlantic and level 1 in the Bermuda?
All upgrades are on max. I spent more than 100 barrels at each of the levels, but nothing helps. Whatever I tried not working. Bermuda DLC stuck at the beginning so it does not make sense. I want to keep playing. Otherwise the game is awesome ...

Is there a bug?

Please Help!!!. I had too / also the bug, which is reported here by some player
(e g like could not been opened , failed to srat ect)
I came across the same issue
in the forum, a link + helo could be found to fixx this bug

bessided I love this game, had played it allready 2006 + I am very happy to find it here again,
I ahd also finished caesar3, zeuss, first emperor + pharao. At this point I am half way through the game, but I wanted to write a review while the game was still fresh in my mind. First off, this is a long game for VR which is almost unheard of. This will easily take me 7-8 hours to beat compared to a lot of VR games that can be beat in 1 hour. This is primarily a platforming game with a dash of RPG elements. A platforming game in VR does sound odd, but it is executed very well. There is also some combat and puzzles sprinkled in to give it some good variety. I would recommend sitting in something like a computer chair so you can swivel while playing instead of standing. This is what I have found works best for me. I have not really played a game like this in VR before and I cannot recommend it enough. At the current sale price of \$8 it is an amazing value too.. Great game but has some issues. i am plagued with infinite loading screens that can only be resolved by restarting steam vr. other than that it is a great game. 6/10 because of the infinite loading screens.. cute and oddly profound. highly recommend. This game has been quite fun and even a tiny bit addicting. I will confess though, that I only bought it for the aspect of easy achievements. As much as this game is somewhat fun, it's a crap game. Horrible graphics, smallest screen resolution I've ever seen a Steam Game with, and for god sakes, the license and email look exactly how they'd look if they were written in a WORD DOCUMENT! Good day.. Played first play through in Russian. Then 10 minutes into the game I was destroyed by the huge bases near the center.
10/10
Try playing the game (if its your first time playing) in Russian. Also if you do not want Russain click the Russian flag in the main menu. Great game for a dollar.

Edit: Be very careful of the bases you need to beat to win. The picture is not lying about how many turrets are there xd
